

# BIJOL

## OUR TEAM & LOCATIONS

- We are the leading company for motor vehicle upgrades and sales of lifting equipment in Slovenia.
- We produce our own products like the forestry skidder BWS240, orange peel grapples, additional equipment for cranes, etc.
- The company was established in 1996; in 2014 we opened a service shop in Vransko.
- In 2021 we opened a production shop in Vransko
- We upgrade over 200 vehicles a year with different systems.
- We have 65 employees, value added per employee is 57.400 EUR.
- In 2019 we had a turnover of around 20 million in 2020 it fell because corona to around 13 million

- We have 3 own service and productions Sites, 1 in Vuzenica and 2 in Vransko
- We have 5 contracted workshops: AS Domžale, Dobrodel, SU-AD, Svit-Zolar and Montage Tehnik. 3 in Slovenia and 2 in abroad.
- In 2004 we started working for the Slovenian Army
- We have built more than 100 vehicles for the Slovenian Army
- Since 2004 we made over 839 services and mountainous for the Slovenian Army
- Also, on other machinery like cranes Coles, Faun, Volvo excavators, special vehicles form Mercedes Benz and MAN.

- We have a service and maintenance authorization for DEUTZ and CUMMINS engines.
- BIJOL is one of 8 founding companies of the Slovenian military cluster GOIS, that was founded in 2008.
- From 1998 we build all truck upgrades for the Slovenian Civil Protection that is under the jurisdiction of the MOD of the Slovenian Army.
- We build in between 140 and 150 vehicles for the Slovenian Army and Civil protection together.
- Protection of the building is according to the standards of MOD of the Slovenian Army
- Mr. Nanut from the MOD was present at the construction of the security system of the building BIJOL VRANSKO #2.

### RESCUE VEHICLE

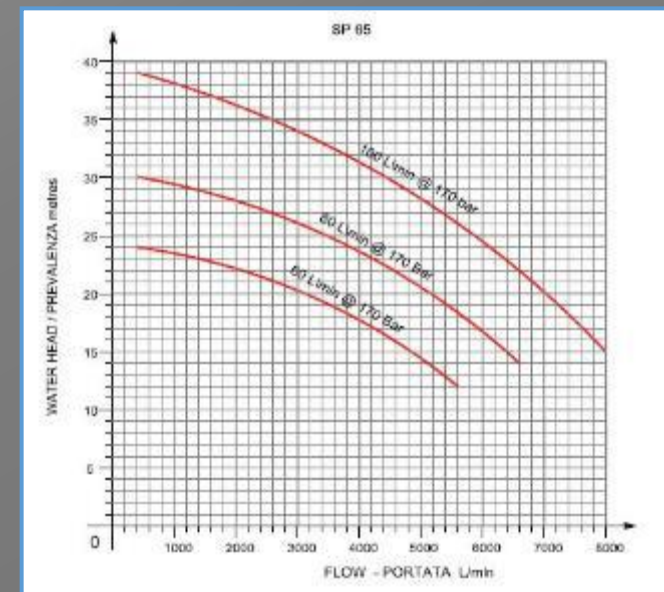

### PUMPING MODULE

Operation limits of pumping module:

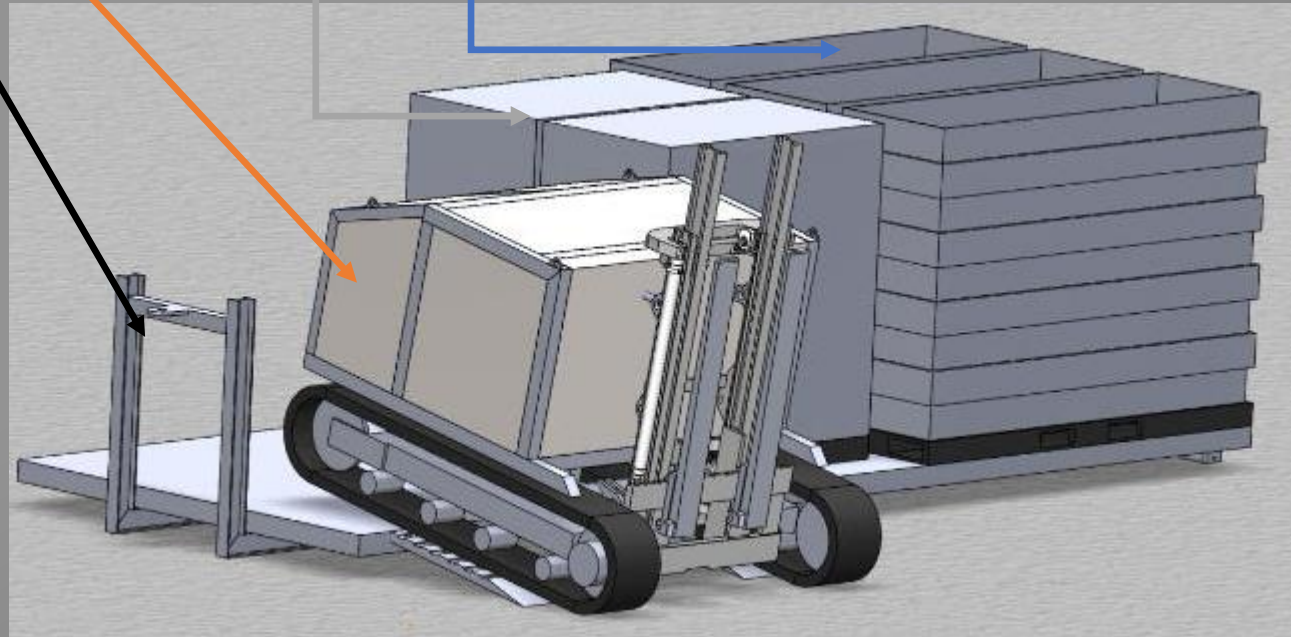

- Pumping height 60m
- Maximum pumping length at minimal height is 3000 m.
- Maximum flow is 8000 l/min.

### PUMPING MODULE

1. Boxes for tubes
2. Boxes with equipment
3. Mobile module with DRIVE
4. Ab-roll container 20"

1. 3 × box for 500 m pressure tube DN 150
2. 1 × box for submersible pump; 1 × box for rotary drum of high pressure tube R ¾" (60 meters length) (for hydraulic drive)
3. Mobile main module with: Diesel Engine Deutz (221 kW/300 KM at 800-2200 RPM) (with fuel & hydraulic tank) + centrifugal pump + control system
4. Ab-roll container 5900 × 2475 (DIN 30722/1)
